Quality Research Papers: For Students Of Religion And Theology

Synopsis

This updated third edition of *Quality Research Papers* is fast becoming a standard reference textbook for writing research papers in the fields of religion and theology. It gives improvements and added material for such things as the expanding field of online research and doing church-related research in a professional manner. Because so many new developments have taken place in the field of research, especially in terms of electronic research, this handy reference explores the ways to do research on the internet, including how to document such research. *Quality Research Papers* offers great opportunities to students today, especially in distant learning situations, to determine which resources can be used and which should be rejected. For this reason Nancy Vyhmeister brought in Terry Robertson, Seminary Librarian at Andrews University and professor of the seminary master's level research courses. His expertise in library, computers, and the Internet are invaluable to the book. In addition to substantial, current information on electronic resources and online research, this third edition preserves all of the features of the original editions, now presented in a newly revised, more logical order.

This much-needed resource takes theology students from start to finish in writing a quality term paper, thesis, or dissertation. Step by step, here is the guidance you need to: Select a topic and narrow it down to a workable area of research Effectively use library and computer resources Write clear, relevant notes Organize your thoughts Format the paper, including footnotes and bibliography Present specific research such as surveys and case studies Use statistics, tables, and graphs

Well-organized, filled with helpful examples, and written with your unique needs as a theology student in mind, Quality Research Papers is your one-stop desktop guide to writing superbly crafted papers. --This text refers to an out of print or unavailable edition of this title.

Nancy Vyhmeister (EdD, Andrews University) has fifty years of experience in teaching future pastors and professors not only in the United States but throughout the world. She continues to have a global ministry in her retirement years. She has authored several books, both in Spanish and English, including a Greek grammar book for Spanish-speaking students. She was editor of Women in Ministry: Biblical and Historical Perspectives. She currently resides with her husband in Loma Linda, California. Terry Robertson (MA, Andrews University, MLS Indiana University) is Seminary Librarian at Andrews University and teaches the master's level research course at the seminary.

The book has an abundance of information from how to use the library, taming the internet to choosing a topic to planning and conducting research. It has everything I need in one book - organizing, writing and formatting, and defining how to footnote and format a bibliography.

Quality Research Papers by Nancy Vyhmeister (5 Stars)Great book if you are new to research papers or if you have written many papers. The book gives plentiful tips and advice to improve anyone's writing skills.

The book is presented in simple terms, but in-depth in content. It is practical in approach, but supported with adequate theory. It, therefore, makes writing of academic papers, theses and dissertations a welcome task to students at all levels. It gives a leverage to seminary students to present quality papers. I will recommend it to theology and religion students. Nicholas Darko (Rev)

Prfect exactly as expected !!!

Great purchase. Happy. No complaints.

Wonder manual for the first year student. Somewhat a difficult read for challenged readers such as myself, but if you slow down, highlight the material and then re-read it the format seemed easier to follow for me.

This book was a required read for my Doctoral course. It has definitely helped me to learn how to write in Turabian Style as I was only familiar with APA.

Books like these are tediously boring. At least most of them are. But this book was actually quite interesting. Nancy Vhymeister discusses how to choose a topic, write a thesis proposal, conduct research, take notes, create bibliographies, construct footnotes and end notes, and she also introduces the student to software and internet websites which will provide the most help. She even has a final chapter about how to prepare a final project for the Doctor of Ministry degree. I'm not looking forward to all the other books in this genre that have been assigned to me, but I am happy to report that this one was helpful and held my interest.
