Michael Middleditch is the author of The Penguin London Mapguide, The Paris Mapguide, The New York Mapguide, The Penguin Map of Europe, The Penguin Map of North America, and The Penguin Map of the World.

I cannot be in New York without this book. I was a bit surprised, however, to find errors in this "revised" edition. Some museums are in the wrong place, and others have changed names which have not been noted in the book. Also, it's about time for a similar volume with the REST of Brooklyn and at least part of Queens and the Bronx.

Bought this on a recommendation. Great color detailed maps. Everything you need to know to travel around NYC. If you love maps like I do, you'll love this one.

This is really helpful. I have maps with streets and maps with subway stops but these maps just seemed to help put everything together. Very thin, so easy to take with. Written material on sites etc. I just disregarded as I felt the book was too old to use for this.

Of the four items I purchased to help me navigate NYC, I would rate this as my second choice. It bills itself as a unique publication with information to enjoy Manhattan, Brooklyn and the Bronx and it lives up to it's promise. This would be my number one choice if I were staying in NYC or visiting with my family. It has tons of tourist information, is very easy to use and very detailed. It has a section titled "Interesting Walks" which is very nice for anyone who would like to stroll the city and take it all in.

The New York Mapguide: Fifth Edition This map, part of a series published by Penguin, is in booklet form, making it easy to handle (no yard-long foldouts). Even better, it is easy to read, with large-enough print and clear color demarcations, so one can find a location without eyestrain. I always use these maps for London, Paris, New York. I just wish Penguin would cover more major cities.

Good simple map guide. I had an older edition but accidentally gave it to someone who did not return it. I do not enough spend much time in NYC anymore but still felt the need to get a new one.

Love this Mapguide! Better than single page maps. Some things are closed now (like cinemas and food markets). So you might want to double-check some locations first before you visit them!

Its ok, very complicated and small though
