Customer Reviews

Annie Heminway teaches grammar, creative writing, translation, African cinema, classic and Francophone literature at the SCPS of New York University. She is also a translator and an editor for Francophone publishers. In 2006 she was awarded the Chevalier de l'Ordre des Palmes Académiques by the French government in recognition of her work in promoting the study of French.

What I like about this book is that it gives you excerpts of many books... It is great if you already have the full books and use this to supplement ones you may be interested in but don't want to buy.

I generally like the texts by this company but I really don't think this is a good standalone book. They should have called this a supplementary text or an annexed resource. If it was promoted like that I would give it five stars because it is still a good source of information.

Bought this recently, and have been using it since. It is very easy to understand with a lot of exercises for practice. It helps with clarifying grammar for the 'not so new' learner of French (I needed help with the fundamentals, that's why I bought it). A good buy to supplement other grammar books.

This is a really good book that I'm happy I purchased. It is chop full of vocabulary and exercises. But just like anytime one is learning a language, a book can't provide everything needed. This book, a good dictionary, some additional reading text, and a good speaking partner will give you a very good foundation for french.

The real fine points of French grammar, syntax and vocabulary are contained herein. Easy reference to use with lots of examples.

I am very impressed with this book. I have been taking immersion classes in France and wanted to prepare for my next set. I picked up several French grammar books (I am intermediate) but I find this one is most helpful. She gives great explanations of why things are the way they are. Exercises with the answers in the back. I am working through it at 20 pages a day. Very helpful!

I'm thoroughly enjoying this book, but it's not for new speakers.

excellent resource with lots of exercises, and easier to carry than all of the books it combines. very good grammatical explanations.

this contained all the grammar to really get moving on french. I have made nice progress and recommend it to serious learners who use grammar texts.
