Synopsis

President Donald Trump signed the National Aeronautics and Space Administration (NASA) Transition Authorization Act of 2017, the first comprehensive NASA authorization act passed in seven years by Congress, authorizing \$19.5 billion in funding for deep space exploration and human travel to Mars by 2030. NASA will lead our nation and our world on a journey to Mars. Like the Apollo Program, they will embark on this journey for all humanity. Mars is the horizon goal for pioneering space; it is the next tangible frontier for expanding human presence. Mars has found valuable resources for sustaining human pioneers, such as water ice just below the surface.
