we promised ourselves that this would be the only wedding book/magazine etc we'd spend money on, just to have a little something to commemorate the planning process. that being said, it's a lovely book- but completely unnecessary. you know that little thing called Pinterest? yeah, use that. we are very happy with the purchase though, definitely more of a sentimental than functional buy for us.

I like the book but when it was delivered the cover was torn in several places. It looks terrible and I ended up just taking it off.

Love it!

This is such an amazing book for the avid wedding planner and the rustic styled bride! Maggie does an amazing job putting together rustic styled weddings in a easy to look and read format. This is a book that you will want to hold onto for a long time!

The main reason I bought this book is because some of my work is featured in it, I do wedding flowers, the bouquet on page 2 is mine and so is the cake on the first page. It's full of great ideas and great photographs. Great for anyone planning a rustic affair.

Disappointed! Just a book of pretty pics.

Loved, loved, loved the ideas in this book. Will come in very helpful. Highly recommend especially

for an outdoor wedding.

Arrived promptly condition even better than described, beautiful book.
