Do you like to look at the moon? Did you know the moon changes shape?The author, Efrat Haddi, has written a fun book about a little character who wants to catch the moon. What do you think of that idea? In this book, the character tries many methods if catching the moon, all if them are pretty

funny, but quite imaginative. When you read this book you will discover all the methods the character uses, and will be able to answer, 'Does he catch the moon?' Adults and their children will enjoy reading this book. The children will giggle and laugh at all of the efforts of the character. There will be discussions about each effort, and what the child might do to catch the moon. The illustrations by Abira Das are bright colorful, vivid and bright. They depict all of the adventures of the characters. This is a fun book for all. Recommended. prisrob 05-29-17

Interesting story, pretty drawings and there are part of interaction activities in between the pages. Good for kid thinking of the reaction. Recommended for kids age 4 to 6.

Out of all the books I bought my daughter loves this one best. It's a thin paperback that looks printed with an inkjet but it's all about the quality of content with these lil ones.

Great page by page interactive physical comedy. Got my son to giggle to death. Just got 3 more books from this author.

My grandson loves me to read this to him

given as present loves books

I like to catch the moon. I think the monkey is very brave because he fell down a couple times but he didn't cry and kept trying.
