Rick Steves Snapshot Milan & The Italian Lakes District

Synopsis

You can count on Rick Steves to tell you what you really need to know when traveling in Milan and the Italian lakes district. In this compact guide, Rick Steves covers the essentials of Milan and the Italian lakes district, including Lake Como and Lake Maggiore. Relax in the sleepy village of Varenna, visit the Villa Taranto Botanical Gardens, or check out the museums in Sforza Castle. You'll get Rick's firsthand advice on the best sights, eating, sleeping, and nightlife, and the maps and self-guided tours will ensure you make the most of your experience. More than just reviews and directions, a Rick Steves Snapshot guide is a tour guide in your pocket. Rick Steves Snapshot guides consist of excerpted chapters from Rick Steves European country guidebooks. Snapshot guides are a great choice for travelers visiting a specific city or region, rather than multiple European destinations. These slim guides offer all of Rick's up-to-date advice on what sights are worth your time and money. They include good-value hotel and restaurant recommendations, with no introductory information (such as overall trip planning, when to go, and travel practicalities).

Excellent guide book. The book goes over sites that we would have just walked past, and not looked at. By providing small history lessons on sites around Milan, made our walking tour so much more enjoyable.

We always like Rick Steves guidebooks. This one is good and is pretty comprehensive. I only gave it 4 stars because it is missing information on public restrooms and drinking water which must only be in the full country books. We have visited Italy before but I cannot remember if eating establishments will provide tap water if you ask.

Perfect small book just loaded with information pertaining to just Milan and the Lakes District. Not big and bulky to carry around.

Highly informative with directions, phone numbers, and email addresses. We can't wait to put it to the official test!

If you know Rick Steves books, you know what the five stars mean. If you don't, for me, and for many years and places now, they are the best travel books to have (Along with the Michelin guide, for a more "academic" description of some sites).

Very helpful and reliable. Used it for our trip to lake como and it was accurate and up to date.

Love this guide book. Small, good information.

Excellent small book on Milan and the lake region. Perfect for several days in the area.
