Customer Reviews

Jeff Gadsden, MD, FRCPC, FANZCA is the residency program director at St. Luke's-Roosevelt Hospital Center in New York City and Assistant Professor of Anesthesiology at Columbia University. Dean R. Jones, MD, FRCPC is a staff anesthesiologist at Delta Hospital in Delta, British Columbia and Clinical Assistant Professor at the University of British Columbia.

Two compressed with crammed information in a tiny font, makes reviewing like reading a text book on a card. There is no knowledge value as to simplifying topics or presenting useful summaries.

Content is great, but don't buy it on kindle. The change in format loses all the benefit and organization of a flash card. I had assumed they would keep the content organized, instead one

card meshes into the next without discrete breaks. I wish I had paid for a hard copy. Currently trying to get a refund from .

Convenient size to stick in my lab coat pocket . Provide a succinct review of important topics and procedures for oral boards .However , you do need to have in depth knowledge of the topics before you start these cards . Quality of the printed cards is great !

This one saved me in the boards. Has a lot of specific cases with specific managements, diagnoses and things to watch out for anesthesia wise.

Very good book for oral exam review. Excellent organization, up to date knowledge, outstanding format. Could be five stars with some additions e.g cards for Parkinson disease, Jehovah's witness patient. I would also prefer more concise considerations that are easier to recall and the current details in the considerations section to be placed at the back of the card.Excellent work, highly recommended for anyone preparing for ABA or FRCPC orals.

Excellent product and service

I bought these cards about halfway through residency to get a jump on preparing for the oral boards (and mock orals!). These cards will definitely help with that. Overall, a good value, and will do what they claim.Pros:- well organized and consistent to help reinforce a way of *thinking* about each case- solidly made, will last a long time; sturdy storage box- nice selection of issues- cards are numbered and color-coded, with section indexes, to make it easy to find thingsCons:- most cards have little to nothing on the back side, so really this is mostly 150 single-sided cards- the cards a huge - a little bigger than 6x9 inches - bigger than I would have liked; still, they fit in a white coat pocket- the breadth and depth are appropriate for the ORAL boards, so don't plan on relying on them for WRITTEN board review

Great review system mix and match operative procedures, intraoperative complications, with patient comorbidities. Certainly helped me prepare for the oral boards.
