Patent Law (Concepts And Insights)

Synopsis

This Concepts and Insights title offers an unusual mix of approaches to explaining the modern patent system. It combines both a comprehensive view of the law itself with key academic insights that illuminates the many policy challenges in the area today. The book is theoretical, yet grounded in the realities of the legal system - drawing from a range of original works across the field. As such, the book will be useful to the scholar, the student, and the practitioner - anyone who needs a compact, yet sophisticated overview of patent law.

Best Sellers Rank: #850,796 in Books (See Top 100 in Books) #68 in Books > Law > Intellectual Property > Patent, Trademark & Copyright > Patent #8424 in Books > Textbooks > Law

Customer Reviews

Used this as a hornbook for my patents class in law school. Built my entire outline off the book. It is the most up-to-date and concise hornbook out there on the topic. Easy to understand, and no filler. Of course, you should never rely on one thing to help you through final exams, but this book is a tremendous asset in any patents course.

I found that this reads more like a novel and was not a helpful study guide. I had hoped to use it to supplement my outline, but didn't get past page 3.-law student @ T1
