Central Crete Hiking Map 1:100,000, Waterproof # 93

Synopsis

Crete Central Iraklio - Rethimno (#93) 1:100 000 Hiking Map ANAVASI Crete Central waterproof hiking map at 1:100,000 (1 inch = 1.58 miles), GPS-compatible (Rethimno #93) ANAVASI This is a GPS compatible road map with topographic base, printed on waterproof and tear-resistant paper. This sheet (of 3 for the whole island) covers the central part of Crete, between approx. 15 km east of Iraklio to approx. 15 km west of Rethymno, including the archaeological sites of Knossos, Festos, and Aghia Triada, Mount Ida, and the resorts of Aghia Galini and Matala. Contours at 100m intervals, relief shading and spot heights show the island's topography, and the maps also indicate variations in vegetation: forest, shrubbery, orchards, and vineyards. Road network includes minor unsurfaced roads and dirt tracks, and indicates difficult or at times impassible roads, locations of petrol stations and tyre repair workshops, as well as intermediate distances between selected points. Archaeological or historical sites and other places of interest are highlighted, with symbols marking beaches, campsites, caves, museums, monasteries, etc. Names of town, villages, places of interest, and most geographical features are in both Greek and Latin script. The map has both Greek coordinate system grid lines and ticks for latitude and longitude lines at 5' intervals. The index on the reverse of the map is in both scripts. Map legend includes English.
