I enjoyed the book more than I thought I would. I'm not really into this genre but the author really brought the book to life. I connected with the characters in a big way. The story line was very good and it made me want to finish the series. I went to purchase the other 3 books in the series and I'm looking forward to reading the rest. I would certainly recommend this book to start with and I'm sure you will go on to order the other 3 books.

This book seemed to have an interesting plot, however, I found it to be overly melodramatic and boring. It became very hard to push forward and continue reading it, so I just stopped at chapter twelve and move on to a much better and engaging book.

pretty well paced, kept my interest in continuing to read the series.

So, that author Said, I wasn't required to write a review on this book, but I'm sorry, this book is brilliant! I had to. There was no way, I wasn't going to say something about it. Burning is the first book in the Dark Powers Rising series and it begins with a bang! Sure to grab your attention and not let go, this book is filled with a fresh Dystopian world filled with danger on every corner, at every turn. Edie and Robin are wonderful characters filled with depth in so many ways. Burning is a must read book with an amazing strong female heroine. This is all coming from someone who isn't much into Dystopian novels, but Ms. Fernfield is now the exception with this gripping series. I was given a Review Copy of this novel from the author and have written this unbiased review of my own free will.

Wow... This story is intense and takes you on a ride through a world early similar to our own, only set in a time after disease has struck and modern conveniences are less than convenient. The

characters are dynamic and relatable. The plot is quick and interesting, although the first couple of chapters are a bit slower due to setting up the world, even then there's enough suspense to keep you turning pages. The story is also a bit emotional. I found myself smiling and crying a time or two. It does leave you on a cliffhanger and wondering what would happen next. I was gifted an ARC by the author but was under no obligation to review.

Burning is a YA dystopian story which caught my attention as I haven't read a YA dystopian in some time and I thoroughly enjoy the genre, What also caught my eye was that it was set in England. I've been on the lookout for more England based YA that isn't contemporary, so was pleased to pick this up. The main characters we follow are Edie Fletcher and her family. Edie is a very independent and impulsive 17 year old who is just trying to help her family and others survive in the new world after the disease has ravaged the population. She does things she's not supposed to like any other teenager as she feels she knows better, but she does them for the right reasons as she has a good heart. Pascha is a typical little brother who gets under the feet and is generally irritating to his older sister, but in reality is just a good boy. Throughout the book there is a constant feeling of unease and that there is always a threat hanging over everyone. It made for quite an uncomfortable yet compelling read. I feel this is the closest to a "real" dystopian story that I have ever read and the fact that it could happen makes it all the more scary. It shows how different people cope in these situations, some become strong and lead others in the best way to work together and survive, others become followers and need other people to deal with things for them and some people use it as a way to gain power and control others in the most sinister and vicious way. The story is very well written and the ending was incredibly intense. I found myself yelling at a particular character because of how angry and terrified I was of him. I really enjoyed Burning and I'm glad Primitive is already out as I will be going straight on to read that!

4 amazing stars for a strong female lead! If you're looking for a book that keeps you wanting to turn the page look no further burning is it! From the suspense to the love story and everything in between this book had me at page one wanting more! The characters draw you in word by word making you fall in love with them and feeling every emotion they share! Edie is my favorite she draws you into her life she shows you strength and determination! I relate to her because like her I want to protect those I love! This book threw me through some loops and I can't wait to find out where Edie's journey leads me next! -Raquel The Beauties & their Book Blog Reviewer

I enjoyed the plot and the author has a knack for creating suspense throughout the story. The main character is likeable and very independent, although she comes off a bit immature sometimes. This makes sense since this is a YA novel but I do hope she continues to mature throughout the rest of the series. Some grammatical errors and weird sentence structuring were a bit distracting.
