# The Intersection: Where Evidence Based Nursing And Information Literacy Meet

## **Synopsis**

Evidence Based Practice (EBP) in nursing is the current standard in nursing education and is becoming a standard by which to judge hospitals by their nursing care. The Intersection: Where Evidence Based Nursing and Information Literacy Meet describes how the Association of College and Research Libraries (ACRL) Framework and Information literacy Competency Standards for Nursing mesh with nursing essentials, speaking to the information needs of nurses, nurse educators, and librarians who support nursing programs worldwide in the language of nursing. In order to find the best evidence from studies students and practicing nurses must be proficient in the entire range of information literacy skills. The academic library community looks to the ACRL for standards and guidelines to help libraries in academic institutions to connect information literacy with student success. These skills are described in the current ACRL Framework (Framework for Information Literacy, 2015) and more specifically in the Information Literacy Competency Standards for Nursing (Information Literacy Competency Standards for Nursing, 2013). Though the references for this document are from U.S. organizations they are applicable to nursing audiences worldwide. The first book to describe how the ACRL Framework and Information Literacy Competency Standards for Nursing mesh with the essentials of nursing education and practice in evidence based nursing. Speaks to the information needs of nurses, nurse educators and librarians who support nursing programs in the language of nursing. Written by the authors of the ACRL Framework and Information Literacy Competency Standards for Nursing

## **Book Information**

Paperback: 240 pages

Publisher: Chandos Publishing; 1 edition (January 15, 2018)

Language: English

ISBN-10: 0081012829

ISBN-13: 978-0081012826

Shipping Weight: 1.1 pounds (View shipping rates and policies)

## **Customer Reviews**

Sue F. Phelps is the Health Sciences and Outreach Services Librarian at the WSU Vancouver Library. She teaches an online course in Finding Information for Research and provides research assistance for students in the Washington State University College of Nursing. She is passionate about equal access to educational resources for all students and for building a culture of equity on the Vancouver campus. Loree Hyde is the Regional Manager of kpLibraries in the Northwest Region. She has a strong focus on evidence based health care and values being part of the clinical decision making process. Loree provides mediated searching services for health professionals, as well information literacy instruction, and serves as a founding member of the Kaiser Permanente NW Evidence Based Practice and Research Council. Julie Planchon Wolf is the Research & Instruction/Nursing and Health Studies Librarian at the University of Washington Bothell where she provides online and classroom instruction, and assists faculty in designing assignments. She is one of the co-authors of the Information Literacy Competency Standards for Nursing, located online at <http://www.ala.org/acrl/standards/nursing>. See more about her online at <http://library.uwb.edu/staff/wolf/wolf.html>.
