do not buy this version of this guide - buy the older version instead!! This guide is 120 pages SHORTER than the old one and numerous descriptions have been shortened and even left out in this guide from the older one! for instance - the monkey temple in jaipur does not appear in this guide and does in the older one - why on earth lonely planet chose to put LESS information into an "updated" guide is beyond me - I've been using lonely planet guides for years and this calls into question for me whether I should continue or not...I'm travelling with someone with the older guide and its amazing how many times his older guide has more information than this newer one - again - BUY THE OLDER VERSION OF THIS BOOK

Very helpful when planning my trip.

Another Lonely Planet guide with their usual crotchets, and idiosyncrasies interspersed with some good and interesting information.

excelente

We just traveled Rajasthan using mainly this book. Every recommendation we used was on point. It was a very helpful reference guide.

Very happy!

Excellent guide! Planning my whole trip around it. The hotel recommendations are especially spot on.

This was helpful as I prepared for the visit
