General James Mattis

Synopsis

General James Mattis - the Man, the Myth, and Everything in Between The man who said.

“The first time you blow someone away is not an insignificant event. That said, there are some a**holes in the world that just need to be shot, is the same man who said, “Engage your brain before you engage your weapon.” “Mad Dog,” “Warrior Monk,” and “Chaos” are nicknames earned by James Mattis, the 26th and the current United States Secretary of Defense, serving the Trump administration, in his 44 year Marine Corps career, that included field commands in the Persian War, Gulf War, Iraq, and Afghanistan. This is his story...

Customer Reviews

There is not a single paragraph in this book that does not contain at least five grammatical errors. Much of the book appears to be plagiarized from Encyclopedia Britannica or various articles on the internet. There seems to be no original content. Most of the book focuses on far-left unsubstantiated claims attempting to portray Mattis as a war criminal. None of these accusations are cited, there are

no references, and zero investigative reporting was attempted. On top of all of this, the last half of the book contains nothing about Mattis and is a summary of the life of a random Medal of Honor recipient from the Vietnam War. It is completely irrelevant to the life of Jim Mattis. This is the worst piece of text I have ever read.

This is not a book. It's a jumble of rambling anecdotes. Don't bother reading it. It is a waste of time

I should have listened to the other reviewers-this "book" is horrible! Not his story-not a story at all. Spelling and grammatical errors. Could not even read it. Also, it is more of a pamphlet size than a book. Do NOT buy this! It is a complete waste of money.

Amaturish in sum, poorly edited, poor grammer, spelling errors. Poor research and gaps in the time line. Over half the book was not even about Mattis.

UNREADABLE. should not be selling this.

Poorly written. The whole book is not about Mattis. Very upsetting book.

The low rating has nothing to do with the Sec Def, the author is hot garbage. Lawrence Cook wrote the equivalent of a 6th grade book report. Lawrence Cook is hot garbage truck juice at its finest
