super fast shipping, ok books, my only complaint is the random blank pages they are on the back of the cut out bookmarks, but i think it'd be cooler if the bookmarks were maybe double sided?the books arent that thick and the blank pages make you feel like you arent getting much.

I bought this for my 99 year old Grandma. She is in nursing home and they have a craft hour. The books they had were too small of patterns for her eyes. This one works just fine. Happy they make larger patterns. It makes her happy.

I purchased these for use with adults in a group home. So nice to have attractive, easy to color pictures that are age appropriate.

Purchased this for my 68 year old mother and she loves it! Says it's easier to color than in books not

in large print.

Ã Â Cute coloring book, plenty of birds, owls, even a rooster. As well as flowers and butterflies. Images are pretty and have larger spaces so are better for people like me who get stressed out by really detailed images. I truly find these relaxing and can't say the same for the ones that are super detailed. These are good for crayons as well, or colored pencils.

This is a nice coloring book for all ages. kids will enjoy the simplicity of the designs as well as the larger spaces to color in. Seniors with failing vision and maybe less steady hands will likely enjoy it for the same reasons. The designs are cute without being very detailed. The paper is white and thin which is typical for the Create Space self-publishing books. Colored pencils or color crayons will work fine, but markers will bleed through the page to the other side. I haven't tried gel pens yet but would suggest testing them first on one of the extra pages in the book not meant for coloring on to see how they adapt to the paper.

This is a great coloring book for adults - the pictures are beautiful, and fun to color. There are a few different styles, and lots of adorable animals mixed in with intricate flowers. It's been so relaxing to sit and color in these pages!
