Customer Reviews

Hardcover Holt German 3 Komm mit! student textbook. Copyright 2006.

If you could find the audio for this and level two online it would be great... or just make sure your books come with the CDs, otherwise youre wasting your time and money.

Again I say this is a great book if you need to brush up on German and/or you are trying to help someone else learn it. It breaks things down and is somewhat simple to follow.If you are new and wanting to learn German by yourself this is a little hard to follow but it is possible!

Good but missing audio means you're missing a good chunk of the book

As expected speedy shipping

Great book! Great pace! I enjoyed it! It has grammar in the back and in-depth vocabulary at the end of each chapter. I highly recommend Komm Mit!! ^_^

I've been using the "Komm Mit" text books for years with my students because of our school district's choice. While there are many good elements, there are just as many flaws, most of which can briefly be summarized in the following points:(1) It is good to use contemporary topics when teaching any modern language, such as the book does, but it is simply wrong to use colloquial German to someone wanting to learn basic German conversation and translation skills. "Komm Mit" does just that throughout its three text book levels. Some of the colloquial German may be used in some youthful circles and popular TV shows, while others is trendy imitation of American English slang words that are not even used by most of the German speaking population in Europe.(2) Each chapter provides a cultural reading section, which in itself is good; however usually way above the student comprehension level. This is often discouraging to the student as he or she has no way of getting its context based on the vocabulary learned. For example, Goethe's vastly outdated German writing (and topics) are nice for advanced High Schoolers in Germany, they are hardly text book material for foreigners who are struggling to learn the basics of the language.(3) Each chapter starts with a conversation topic, but the vocabulary is introduced at the end of the chapter making it a backward and awkward system of introducing new words and phrases. Additionally and most strikingly, not all vocabulary is even introduced that would enable the student to actually translate the text.(4) Though relatively minor, there are your usual text book errors -- this time revealing that the author(s) at times are thinking more American than German. For instance, from a picture in the first book, several items, ranging from the window to the electrical outlet, look more American than a room in Germany. Judging by much frustration from my students, including similar experiences I heard from many of my colleagues, the Holt series at least in German cannot be recommended.

just OK . send it to my boyfriend , i will purchase it from you next time. delivery on time receive it next day . Great looking product, beautifully crafted. Very sharp, good weight, incredible price!

:)
