Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for the Caribbean and other locations worldwide.

I purchased this for my girlfriend and I to use while snorkeling and diving on a trip to Barbados. The first one I received was for Turks and Caicos (I did discover that both ID cards have the same species). immediately resent a replacement which came quickly and was correct in that it said Barbados on it. However, it was badly delaminating in all four corners. I tried to re-laminate it with the heat from a hair dryer and I also tried ironing it (with a towel in between) and neither method worked and unfortunately I didn't have time to wait for another replacement before my trip. As soon as it got wet it began to delaminate further and curl up at the edges. It was cheap so I'm not too bummed, and I was able to buy a better one at the dive shop while in Barbados. The incorrect one was of good quality but the replacement was not so. So, two stars for this item but if I could give five for 's customer service I would - on the rare occasion I've had to use them they've always been entirely accommodating.

Love this; taking a trip to Barbados and this will come in super handy for snorkeling. It's pretty tiny,

about 3"x4", and the text is pretty small, so if you have vision problems, may not work for you. Has a hole to attach a lanyard or something. Could be referred to while snorkeling.

Received the card in good condition and love the art work, but disappointed b/c there is no flying fish (Barbados is known as the "land of the flying fish"). And also it says "sea horse" but there is no picture of a sea horse at all.

Good Reef Guide. Missing the seahorse photo. Haven't taken it into the water yet.

Wish they made a bigger one, but is great anyway..
