Biking Puget Sound: 60 Rides From Olympia To The San Juans

Synopsis

More than 50% new photos throughout 60 rides total, up from the original 50, chosen for their interest, beauty, and safety. Read & Ride – downloadable cue sheets! Nothing beats riding a bike on a sunny day, and this popular cycling guidebook has been lovingly updated with more fun than ever. As with the first edition, author Bill Thorness includes interesting sights, delicious break stops, and other novelties along the routes to make your outings more than just a sum of the miles ridden. Says Thorness, “I’ve filled a lot of holes in regional cycling info, due to the expansion of the cycling trail network and addition of new bike facilities since the first edition. I’m excited about the result.” Thorness reviewed and rechecked all of the rides from the first edition. Also in this edition are new “Route Connections” that help riders link up multiple routes to give themselves a longer one-day ride or even create multiday tours. You can find more information about biking in Western Washington on the author’s website at BikingPugetSound.com.

Book Information

Paperback: 320 pages

Publisher: Mountaineers Books; 2 edition (September 24, 2014)

Customer Reviews

BILL THORNESS is the author of *Biking Puget Sound* as well as a prolific gardening writer. His work has appeared in the *Seattle Times*, *Seattle Post-Intelligencer*, *Seattle Metropolitan* and more. He is the editor of the *Seattle Tilth* newsletter and served as president of *Seattle Tilth*’s board of directors. He lives with his wife in Seattle, Washington.

Product as described. Great quality and good price, shipped quickly.

Great

We just returned from a bike tour of the Puget Sound. This book was helpful in some ways, but some times we questioned the routes (one in particular was terribly noisy and filled with big trucks).

This book is very helpful for all of us that cycle in the Puget Sound . The best book I have found that targets the areas that I ride in.

the book was great, had a lot of new routes that we did no know of

Great book with good maps and useful and interesting information

I love this book! The biking directions are so exact and accurate that it would be very hard to get lost on one of your rides. For example, I did the Kubota Gardens tour last weekend, and the Chief Sealth Trail directions were spot on. Moreover, it was such fun to explore completely new and delightful parts of town, including that bike tunnel that goes under Mount Baker. I never knew it was there, and what a miracle it is!

Great routes listed in the book. What destroys the credibility of it is the driving directions to each starting point, especially for any of the routes within the city. Honestly Bill, traffic is so bad in Seattle that it will take you a quarter of the time to get to the starting points than driving.
