Customer Reviews

Awesome book! very helpful!

i found few pages missing from end of the book that contained abbreviations. Also there were writings in few pages of the book. Writing this review to declare these faults were present when i received the book. Other than that the book is fine.

Very satisfied with the book. It was in great condition and I'm currently using it for my CNA class. Thank you. :) oh also it was a great price !

I enrolled in CNA and I am surprise with the price, in school they charge almost double the price,

good thing I check and buy at it saves me more especially I have a prime member. This book is good to read and its really informative for the student who will take CNA/GNA

This book is very knowlegble on the nursing assistant duties.

Book is a standard textbook for my GF's CNA class. It's exactly what you would expect.

There's a newer version

The book and extra paperwork helped me pass my State Board test & Skills test. I also was able to be ahead of the class as well from receiving my book 2 weeks early.
