LOOK, I understand I rented a USED textbook. It is a book, It is going to suit its purpose. What I have a problem with is the book was not even in OK condition. The book was in POOR Condition. The body of the book (pages) were in tact (barely), however they were not attached to the

hardcover body of the book. When I opened the book the body fell on the floor as I was left holding the hardcover shell!. The least the Renter could have done is prepare the book before shipping. Anyway, as I said earlier it will do its job, just not happy about the book falling apart and the risk of when I return they blame it on me..... I'm just saying.

This book could use some editing and updating. One glaring example of this was the section on world religions. Muhammad's birth date was listed as BC not AD...only a few centuries off. The cases were also woefully out-of-date and would not be relevant to current students.

just another college textbook

Fully comprehensive and relevant information. A great book to have.

In perfect condition. I tried to buy the same book from 2 different sellers and they all sent 2007 editions. So glad to finally have found it at a good price.

Great book. Same as regular US version.

it was okay

This books present a concept, follow by an explanation of it and reinforce with a case or a case study
