# Logically Fallacious: The Ultimate Collection Of Over 300 Logical Fallacies (Academic Edition)

## Synopsis

This book is a crash course in effective reasoning, meant to catapult you into a world where you start to see things how they really are, not how you think they are. The focus of this book is on logical fallacies, which loosely defined, are simply errors in reasoning. With the reading of each page, you can make significant improvements in the way you reason and make decisions. "Expose an irrational belief, keep a man rational for a day. Expose irrational thinking, and keep a man rational for a lifetime." - Bo Bennett

## Book Information

Paperback: 362 pages

Publisher: eBookIt.com (February 22, 2012)

## Customer Reviews

A very well thought out book.

Thorough and fast reading.

A definition and examples of a breakdown of many types of logic errors.

I've been a fan of Bo Bennet. Good as expected.

Not a bad guide for logical fallacies. A bit wordy with some duplications that could be better ordered, but solid.

I love learning about fallacies and how to point them out in arguments. This book helped me out.

lot of fun for brainiacs

Quite the read to get the mind thinking!
