Queen Fae totally hit the mark for me in continuing the NYC Mecca Series story line. I love how Ari and Kade solidify their relationship as they travel through the otherworld in search of Ari's close friend Violet. We meet new races and learn about how the land of Fae is made up of four courts, as well as how the shift of Mecca has affected the lands. Ari and Kade both make important discoveries about their families and both become stronger for having questions of the past finally answered. I loved the pace of Queen Fae and found my emotions swinging all over the compass as I

read. I was surprised frequently at bits of information I did not see coming and finished book 3 with a balance of satisfaction and yearning for book four. Jaymin and Leia once again show their writing compliments each other in creating another fabulous read!

I couldn't have asked for a better continuation for this series! My heart stopped a few times, I had some tears along the way and I had some laughs! Jaymin and Leia know how to pull out all the stops to give you ALL the feels. Kade is one of the BEST book boyfriends I have ever read. Ari is strong and confident and knows how to handle herself. The supporting characters all wrap you around their finger and they aren't letting go anytime soon. Anxiously awaiting the next in this thrilling series!

The 3rd book in the NYC Mecca Series did not disappoint! I loved seeing the Otherworld, seeing how different yet similar it was to our world. The setting descriptions were wonderfully detailed. Loved the surprise characters, don't want to spoil it, but that side story was heartwarming and perfectly written. My favorite characters have been Kade, Cal, and Finn, but I think Violet just jumped up to near the top. I think this book humbles her a bit, but I can see how she will come back even stronger than before to help tip the scale in the major battle that has been setup for the last book. In this book, Arianna gets to learn more about herself and goes through a difficult journey, but still triumphs at the end, just in time to prepare to take on the ultimate darkness. I can't wait to see more of Arianna's powers and how she and Kade will work together to unite everyone against the Winter Court and their allies. I hope the 4th book gives the side characters the spotlight they deserve (don't get me wrong, I love Kade and Ari, but the side characters are fantastic and I just want to see more of them/see some of them kickass!). The only critique I would have of this series is the romance (little lackluster after all the awesome build-up). Despite that, I absolutely love this series and would highly recommend it!!

Holy smokes the twists in *Queen Fae* by Jaymin Eve and Leia Stone are out of this world. I had my suspicions and some of them were right. This was just as amazing as the first two books in the series. So much information of the overall story is shared and questions answered. I really enjoyed seeing the Otherworld and the life that lives over there. Many new creatures, adventures, and surprises. Kade, the bear King continues to show strength, love, and protectiveness of his mate, Arianna, but in a way of great respect. Arianna becomes even stronger and dedicated and loyal than before to her family, her mission, and her people; both the

wolves and the bears. Jaymin Eve and Leia Stone have been incredible with this adventure and I'm so excited for the last book to see how it unfolds at the end.

Queen Fae is the 3rd book to the NYC Mecca series. It's absolutely fantastic! When the Fae kidnaps Violet, Arianna, Kade and her friends brave the Otherworld to rescue her. The mission is filled with danger. Help comes from the most unlikely people. There Arianna finds out about the truth of who she is and secrets that have been kept. While there, Arianna and Kade's relationship continues to grow and strengthen. Will they rescue Violet? Will they survive the rescue? You must read the book! Once you pick up the book, you'll have a very hard time putting it down!

Let me first start off by saying I was given an advanced copy of this book in exchange for a honest review. Again I was sucked in after only the first few pages, and didn't want to put it down. When Fae starts right after Queen Alpha. There is lots of adventures, rescue mission, a huge surprise, and many people to kill. Joining the Bears and Wolves isn't an easy task. I love all the twist and turns, emotional ups and downs. So if you fell in love with Queen Heir and Queen Alpha like I did, you'll love Queen Fae. So pick up your copy today! Now to wait and see what happens in the fourth installment Queen Mecca holds.

3rd book in the series. Now stripped of her crown, she is persona non grata in the wolf boroughs. Ari and Kade's group blast through the mecca stone into faery to rescue Violet. Faery is dying from the lack of mecca, the balance is off on the earth side. Landing after fighting for their lives, finally in the winter court, to break out a near death Violet. With escape imminent, winter's queen captures Kade and Ari as Violet is whisked away to summer. Family ties are revealed, and they return to NYC to the brink of war with the bears and wolves. Arianna must fix the mecca and stop the war. Fast paced great story.

What can I say except - WOW! Jaymin and Leia have done it yet again with the third book in this series of five! This book leaves right where book two leaves off (if you haven't read book one and two - stop what you are doing and go read them NOW) and has you in the seat of your pants the whole way through! I mean seriously this book was a rollercoaster of events - and I just wanted the ride to keep on going! Trust me you don't want to miss out on this series - I simply cannot wait for the fourth book to come out so I can get my fix!
