Customer Reviews

Jenifer Corr Morse is an award-winning author who has written many books for children and young adults, including SUPERSTAR STATS and the Scholastic Book of World Records series.

My daughter loves to read facts and learn about things that nobody knows. Be the first to tell your friends some unbelievable facts.

My son saw this book in the Scholastic circular he received from school. As usual, I compared it to the price. With Prime, the total was less, so I bought it from . My son LOVES this book. He keeps it

handy (i.e., I find it in various places around the house). After the initial long span of time he spent with the book, he now refers to it or reads it from time to time. I asked him if he still enjoys it and I received a resounding YES. I plan to buy the 2014 edition when it comes out.

Your kids will get more from this than exchanging texts, messages on FB, or watching Nick. But you may get irritated with the constant "Dad, did you know....." after you hear it 500 times. Still I'd much rather have my kids reciting facts to me than celebrity Teen gossip.

This is a must see for all children. Sparks many conversations and there's always more to look at! Look forward to each year's publication!

Bought this for my 2nd grader as a reward for a good report card. He has really enjoyed it. I am glad that he is loving to read it and learning interesting facts at the same time. Nice pictures. Wish they had a hardback as he is really hard on books.

I purchased this for my son for Christmas, per his request. He reads it all the time. The pictures are good. Husband also occasionally flips through. Good book that'll hang out around the house for awhile.

Santa got this for my 9 year old daughter for Christmas. She absolutely loves it. Geared for younger audiences and much more reader friendly than the adult oriented books of the same type. Highly recommend for younger readers.

My 9-year old kid loves the book. I read it and it has lots of interesting information. Price is reasonable for a world record book.
