# Arguing With Idiots: How To Stop Small Minds And Big Government

## **Synopsis**

FUNNY. FRIGHTENING. TRUE. It happens to all of us: You're minding your own business, when some idiot informs you that guns are evil, the Prius will save the planet, or the rich have to finally start paying their fair share of taxes. "Just go away!" you think to yourself -- but they only become more obnoxious. Your heart rate quickens. You start to sweat. You can't get away. Your only hope is... ...this book. Glenn Beck, author of the #1 "New York Times" bestsellers "An Inconvenient Book" and "Glenn Beck's Common Sense," has stumbled upon the secret formula to winning arguments against people with big mouths but small minds: knowing the facts. And this book is full of them. The next time your Idiot Friends tell you how gun control prevents gun violence, you'll tell them all about England's handgun ban (see page 53). When they tell you that we should copy the UK's health-care system, you'll recount the horrifying facts you read on page 244. And the next time an idiot tells you that vegetable prices will skyrocket without illegal workers, you'll stop saying "no, they won't" and you'll start saying, "actually, eliminating all illegal labor will cause us to spend just \$8 a year more on produce." (See page 139.) Idiots can't be identified through voting records, they can be found only by looking for people who hide behind stereotypes, embrace partisanship, and believe that bumper sticker slogans are a substitute for common sense. If you know someone who fits the bill, then "Arguing with Idiots" will help you silence them once and for all with the ultimate weapon: the truth. --This text refers to the Audio CD edition.

## **Customer Reviews**

Great informational book. Should be a textbook in high schools.

Great read. Gives you great facts for arguing with idiots. Sort of like the title says.

Funny. Logical.

Good Read

So far Glenn's political books, including "An Inconvenient Truth" have been overflowing with entertaining quips, Conservative contentions, and Constitutional assertions that will leave the reader both enlightened and encouraged about the possible greatness of this Nation. Although we have fallen far from our founding framework into a dark period with the election and supposed reelection of Barry Hussein Soetoro, our hopeless tailspin doesn't mean we can't enjoy some lighter comical banter in the meantime. Glenn's writing style, source documentation, and chapter organization are all flawless - once again shining a blinding light on the lunacy, insanity, and incoherent miserably failings of centuries-old recycled ideas the liberals try to enact/mandate/force upon us.

I enjoyed listening to this book. It came as promised look forward to buying more. It was in great shape

excellent book

Mr. Beck really nails the subject straight on, if you were looking for idiots as a political class! This book was ordered because I wanted to see the current arguments used by leftists on a number of arguments! Very good at teaching an old man a few new tricks.
