Purchased for our grand daughter because of all the positive reviews and was told it was a "must have". She enjoyed for a few days and then went back to the less expensive teething toys. For us was not worth the cost, given the more economical options.

I like this book, but I prefer the color book honestly. I'm a big fan of Sophie, but there are other words books.

Lame! What is a toy brick anyways?

Good book.

My granddaughter loved Sophie and chewed on the legs and hooves while she was teething - and they withstood her assault on them! A really lovely book and Sophie toy, highly recommend it to anyone with a small child.

Great teether

My toddler loves these books. I also read them to my baby. I like that the series uses the same graphics throughout all the books for consistency and recognition.
