This is a very, very cute book! Our families live in other states so I thought this would be a good book to read to read with Baby as they visit then leave. It's clever, beautiful, & fun to read. I find myself using some of the goodbyes with husband! The art is soo wonderfully modern & in beautiful, trendy colors. I love when creators of children's products keep in mind that parents spend more time with some of this stuff than the kids! We want to love this stuff too!!'m sure it's in the description, but I made an assumption since it's a board book that it would be just a few inches tall+wide. It's big! I love it!Docked stars for quality. This book has peek-a-boo flaps that stick against the board pages very badly & are very thin. I don't expect them to last long as I nearly ripped many of them reading through it the first time I opened it. If it stands the test of time I will update my review.

My 3 year old loves this book! We always say "See ya later, alligator" or "In a while, crocodile" when one of us leaves so it was fun to introduce new ways to say goodbye. It's also an easy book for her to know what is coming on each page to "read" it to her little sisters.

This book is far larger than any other book I've gotten from this publisher, which was a surprise! This is a short, and fun book with a lot of sayings I imagine toddlers will pick up on and enjoy saying. Plus, there are flaps that lift, which toddlers will also enjoy.

I love the colors and illustrations in this book-they look so fresh and modern. The book is so fun and cute & my son loves "reading" it to me (he has it memorized.). This is one of our favorite books, we love it!

My child loves this book. The words and pictures are big and easy to read and my daughter loves to play peek a boo with the animals under the flaps. The artwork is bright and colorful and we can't get enough of it. We also bought a copy for her classroom so they can enjoy it too!

This is such a sweet book! It will definitely be something I give with all new baby gifts.

This is now my daughter's favorite book.

fun, kindergarten students at school enjoy it
