Just received this book last night and read it with my 6 year old. He loves these books and was so excited to read a new one! It was easy reading and had interesting facts about a firehouse. We

learned about 3 different kinds of fire trucks which he thought was cool and the different tools that are found on the firetrucks. The only thing I would have changed, was the fact that the cousin took them to ride on a fire truck to an actual fire, which was not realistic or safe in my opinion. Other than that, I thought the book was great! Perfect for any BB fan or child that loves firetrucks! This is NOT one of the Berenstain Bears Living Lights/christian books, just FYI.

I have a love-hate relationship with this book, lol. My 5 year old daughter announced she wants to be a fire fighter, so we got her this and the Fire Fighter Barbie for Christmas so she could learn more about it. This book goes into great detail about what a fire fighter's day is like - perfect for her curious mind! However, the topic doesn't particularly interest me, and there is not much of a story line or cute rhyme to this book...meaning I get SUPER bored reading it, lol. I'm sure once she's reading on her own, she can enjoy all the details of this book without me having to sit through. Love what it teaches her, hate that it feels like it never ends (but that's just my own lack of interest). Great book for kids :)

Tons of fun for your toddler! A colorful adventure of the Berenstain Bears -- a fun addition to the series. A couple reviewers are comparing this to one of the Berenstain Bears "First Time Books" and don't like that the story isn't believable! No, it's supposed to be a fun way to learn about what firefighters do and how they help us! It's every little kids dream to ride in a firetruck and that's what the whole Bear Family gets to do. Fun!

Good product

Pictures allow for good language discussion.

Great book. My little guy loves the berenstain bears and fire trucks. I just wish the cousin didn't bring them to an active fire. That just wouldn't happen, and it might set kids up for disappointment on a trip to an actual fire station.

I absolutely love the Berenstain Bears! I read these books to my son, whom is now 23, when he was a little guy, and I read them to my younger son currently, whom is 6 years old. They love them, and I actually get into the stories too. It would be so cool to live in a tree like theirs~ ha,ha! This story is so cute, and it's great to have one about firemen. This is a must add to the Berenstain Bear Book

Collections!

Berenstain bears and fire trucks make for a good story.
