## Synopsis

Evolution...intelligent design...creation...or a little of all three? What do you really believe - and why does it matter to your life, your family, and your faith today? Christians live in a culture with more questions than ever - questions that affect one's acceptance of the Bible as authoritative and trustworthy. Now, discover easy-to-understand answers that reach core truths of the Christian faith and apply the biblical worldview to these subjects: Genesis, the Days of Creation, millions of years, evolution, dinosaurs, carbon dating, UFOs, death & suffering, Noah's Ark and Flood, fossils, starlight and time ...and much more. Explore these and other topics, answered biblically and logically in this book from the world's largest apologetics ministry, Answers in Genesis. Timely and scientifically solid, The New Answers Book 1 offers concise answers from leading creationist Ken Ham and scientists such as Dr. David Menton, Dr. Georgia Purdom, Dr. Andrew Snelling, Dr. Jason Lisle, and many more.

Australian Ken Ham is one of the most in-demand Christian conference speakers in the United States. He is the executive director of Answers in Genesis, a creationist organization based in Kentucky, which emphasizes the relevance of the Book of Genesis to the life of the average person. He has authored numerous books including *The Lie: Evolution*, *The Great Dinosaur Mystery Solved*, *Dinosaurs of Eden*, and co-authored *One Blood: the Biblical Answer to Racism* and *The Answers Book*.

I own all 4 volumes of Ken's "ANSWERS" books. While they give some great information I feel some of the answers are a bit soft approached. I'm not a fan of Ken Ham personally, while I agree with Him as a fellow Christian, I'd like to see his work include more detailed and aggressive refutes and answers. I understand these books are more suited to the lay person, so in that context they are great. These are great books for the average Christian who really wants a simpler answer to questions they might have.

Very interesting. My daughter used this book to supplement school. Lots of science to back up these Biblical views. Questions like "Doesn't Carbon-14 Dating disprove the Bible?" Great resource!

It will be very helpful in teaching my Sunday school class. It contains thought many provoking questions. Questions that we usually don't have the answers for. A good apologetic resource book.

If you have questions about the bible, this is what you need. It explains the word in easy to read fashion. Every new believer for sure needs this book. Thanks.

Great read! Makes sense to commonly asked biblical questions. Easy to understand.

An important book to read for anyone interested in sharing with others how the biblical account of creation is reliable and/or those struggling with doubts about the biblical account.

An outstanding reference library for anyone with a clear head. This reference material alone is worth the price because those who are really earnest in knowing the truth can find out. Of course there are many who will not, as described in 2 Timothy 4:3, for they have already chosen their path and will refuse to learn.

A must read for every person who is seeking the TRUTH.....the best out of the 4 in this series in my opinion.
