Jinn Magick: How To Bind The Jinn To Do Your Bidding

Synopsis

This audiobook will not be like the other books I have written. I will introduce to you a class of spiritual beings unlike those you have dealt with before. These beings, at least according to the second largest religion on this earth, Islam, have incredible sway over our daily lives. In fact, they may even be considered demons to some in the West. I will explain that in a moment. As I have stated in many of the other books I have written, humanity since the dawn of time has been in communication and in many ways obsessed with the forces of the spirit world. We all know deep in our bones that there is more to the manifest world. Yet, in all this knowing, we still feel that it is somewhat elusive to us. We go out of our way to connect to the spirit world or go out of our way to avoid it altogether. For some, the very thought of a spirit world that interacts with our own is one of the most frightful propositions. For others, it is quite enriching. To know that we are surrounded by spiritual beings adds a kind of magic to our day to day existence. If you are an occultist, then you are in constant interaction and know very well that everything around you and all the actions of the universe are imbued with magick. In fact, all things are derived from magick in some way, shape or form.

Customer Reviews

Aside from minor spelling and grammatical errors this manuscript is brilliant, Clear and straight to the point. Eliminates unnecessary hokey pokey. Great work!

Excellent book

Great information about Jinn spirits but I would prefer to deal with demons rather than jinns because I think they are unpredictable. Their unpredictability sounds danger whereas demons can be bound by angelic powers.

This is an author superb. Well written. To the point. Easy to understand. I'm a fan!!

Intersting book

Writing skills need to improve, a lot of opinions from the author without substantial proof to base those opinions, need actual research comparisons, but I would be lying if I said it did not contain some gold nuggets here and there. For the length (65 kindle pg.? more or less) and what I got out of it I wouldn't pay more than \$1.99 for it :(

Great.

Very useful & easy read
