# Ronald Reagan And The Triumph Of American Conservatism (Library Of American Biography Series) (2nd Edition)

## Synopsis

Jules Tygiel's biography of Ronald Reagan engages students with the compelling story of the man who went from Hollywood actor to President of the United States. This balanced profile considers both the accomplishments and failures of Reagan's presidency, as well as the contested legacy of his political career even after his death. Incorporating the latest scholarship, *Ronald Reagan and the Triumph of American Conservatism* examines Reagan both as an individual and in the larger context of the conservative movement. The titles in the Library of American Biography Series make ideal supplements for American History Survey courses or other courses in American history where figures in history are explored. Paperback, brief, and inexpensive, each interpretative biography in this series focuses on a figure whose actions and ideas significantly influenced the course of American history and national life. In addition, each biography relates the life of its subject to the broader themes and developments of the times.

## Customer Reviews

"As Jules Tygiel observes in his marvelous *Ronald Reagan and the Triumph of American Conservatism*, Reagan had "discovered a parable that would uncannily presage his own rise." In recounting Reagan's rise, Tygiel, who is a history professor at San Francisco State, provides numerous insights into Reagan. His book, which he notes at the outset is not based on original research, is filled with penetrating observations. It would be hard to think of a more lucid and cogent discussion of Reagan. Tygiel notes that, like his youthful hero *Falkner*, Reagan was the son

of an alcoholic father whom he would find one winter evening lying drunk on the front porch of their home in Dixon, Illinois. Reagan would gravitate toward his mother Nelle, a frustrated actress who enjoyed dancing and performing, often giving readings at church. But his father's lack of prejudice also left a deep impression on him: He barred both Neil and Ronald from attending the racist movie *Birth of a Nation* and refused to stay at a hotel that barred Jews." —Jacob Heilbrunn, *The National Interest* —“Tygiel's biography of Reagan is without a doubt the most balanced account of Reagan's life I have ever read.” —Dr. Richard Traylor, Hardin-Simmons University. —“I find the author's interpretation to be even-handed and reasonable.” —It is a compelling text for getting my students to think critically —Â• —œSpencer Downing, University of Central Florida

Jules Tygiel's biography of Ronald Reagan engages students with the compelling story of the man who went from Hollywood actor to President of the United States. This balanced profile considers both the accomplishments and failures of Reagan's presidency, as well as the contested legacy of his political career even after his death. I purchased this book for a class. While reading the latter, one can retain information in a short amount of time. One can stop reading at the end of one chapter, and then pick-up a few chapters later or before that chapter without feeling lost. This book was not new, and the seller had not claimed that it was... The shipping time was reasonable.

Great item great service!

Very interesting book, had to read it for a history class, glad I did!

bought this for a history class

Dr. Jules Tygiel uses simple, forthright prose to assess the accomplishments and evaluate the legacy of one of America's most popular presidents. His admiration for Ronald Reagan's political skills is fairly balanced with his reservations about some of the unfinished business of the two-term administration. This is a book for general readers, not scholars. There are no footnotes and only a brief bibliography, but the tenor of the text is factual and earnest, rather than fanciful and laudatory. All admirers of the 40th President will surely want to read this concise, stylishly-written biography in order to preview the judgements of future generations of historians concerning Ronald Reagan.

It's a brand new book as described in the description. I'm still reading the book for school, so hopefully it'll be interesting.

I had to obtain this textbook for a college course. I was less than thrilled with the contents of the book.

Book was wholesome, required for a course. Had a lot of information based on his personal views rather than solely his political views, so whether or not this is a good thing is up for you to decide.
