## Customer Reviews

I have found no other dog drawing book that had so many dog breeds in one book. You can follow clearly the drawing explanation for the breeds that are the most popular. They've enjoyed this book

and it has proven to be very helpful as they've learned how to more accurately draw dogs.

Great book for beginners or experienced artists alike.

Was the image traced on tracing paper or some other paper? If the image was traced on tracing paper then how was it transferred to another paper?

This book is really amazing and useful book. I just love this book. It's simply super. very helpful ful to learn detail about our puppy.. Highly recommended. Boost to buy it

I have a few these "Draw 50" books and they are constantly helpful. This one is helpful as well, in spite of the fact that I would have jumped at the chance to see the drawings of mutts in various positions (setting down, from behind, and so on.), however considering that there are fifty distinct pooches in this book, it is hard to see that in this arrangement.

I love this book very much especially the blending and shading techniques are awesome.

Don't waste your money! This book has very poor quality illustrations and has absolutely no horse section. There is a small section on drawing a girls face and the dog section but that's it. I suspect the reviews I read were fake.
