Soils For Landscape Development: Selection, Specification And Validation

Synopsis

Soils for Landscape Development provides a clear, practical and systematic template for specifying landscape soils based on scientific criteria. The soil specifications provide essential information and a universally applicable method for landscape architects and designers, specification writers, landscape contractors and soil supply companies to ensure quality and fit-for-purpose soils. A strong emphasis is placed on reducing environmental impacts by reuse of on-site soil, promoting appropriate minimal soil intervention, and using recycled products.

Book Information

File Size: 9960 KB

Print Length: 208 pages

Publisher: CSIRO PUBLISHING (June 18, 2014)

Publication Date: June 18, 2014

Sold by: Amazon Digital Services LLC

Language: English

ASIN: B00L3W2RO6
