Customer Reviews

so upset with this the stickers for the fish were not even in the book I thought this product was brand new but there was no plastic wrap on it and the corner of the book was bent...VERY VERY unhappy with this, I wish I knew who I could talk to about this but who knows??

Excellent book to relax your mind!!!

Really beautiful pictures. Does take time to do one of the pictures, but so fun and relaxing

Very addictive. Did one after another. Very easy and therapeutic.

Excellent!! LOVE LOVE LOVE IT!!

AAA+

Out of all of the paint by sticker books I have worked on, this one was the worst. I was totally unimpressed by the nature images. They were not engaging, they lacked the creativity seen in other books of this kind, and I found this to be so unappealing, I'm now in the process of sending it back for a refund. Don't waste your time. Look for the paint by sticker books created by Workman Publishing. You won't be disappointed as you will be if you purchase this book.

I've really enjoyed the Workman books that are available so far, and I have to say that I think this book takes it to another level with even more intricate and beautiful images again. You build up images by assembling lots of single-color stickers, like a complex mosaic. Some of the images have more stickers than the Workman books too, and almost completely fill the page once finished - the result is quite breathtaking. There are also detailed background images on the pages that span across the middle of the book, which I wasn't sure about to start with but once the stickers are all in place I think it does help bring the pictures to life - although I possibly still prefer the more subdued backgrounds of the Workman books. But overall I am blown away by the pictures - it's amazing what can be done with such simple shapes!
