Dr. Camille Superson began her professional career as a Registered Pharmacist. After working in hospital and retail environments for many years, she returned to school and became a Doctor of Chiropractic. In that capacity, she opened one of the first comprehensive holistic clinics in metro Chicago. Her life drastically changed when she became a full-time caregiver to both of her parentsâspanning over a decade. She is now devoted to providing caregivers with the help they need: saving them time and money, and helping to make their lives more stress-free.

I can't believe all of the information one will ever need is included in this book! To think of the time it saves searching through the internet and in the phone book! I would highly recommend this guide to anyone and everyone who is a caregiver, a patient and to have on hand for future reference, even if you think you don't need it now....you probably will or someone you know will. Every resource is included you can think of or will ever need. Plus it is organized so well and categorized perfectly, that it's a breeze to locate what you need. This book is essential for those taking care of people with disabilities or aging parents who are ill. Camille shares her first-hand knowledge of support that is available. The book showed me a lot of things I didn't think about or know about if I have to go through this process in the future. Well written and resourced.

What a difference this book made in my life. Taking care of both my parents suddenly, it became my best friend. It was given to me by a wonderful friend and I thank her often. Everyday, there seemed to be an issue or a question I needed help with. Then, there were times in a quiet moment I would read and become prepared for issues that came our way. Keep this book handy, it will become your best friend during these challenging times. It makes a great gift for someone you may know starting this journey...

Dr. Camille has a gift. Her years of experience in the trenches of caregiving with her parents warrants attention. She concisely and artfully lets caregivers know ways to cope, to survive, and to thrive. The fact that her background in the medical fields supports her observations, is an added bonus. Face it, "this too will pass" in your life. Why not make it bearable??? Jaclyn Zoccoli, Alliance Strategist, Network Builders Arizona

You do not need to be a caregiver to benefit from this exceptional book. It includes discounts, for veterans and other groups, about that area hugely beneficial. You'll discover free and lower-cost products from eye glasses to adult diapers. The beauty of it, though, is the specific links and numbers listed for little-known or un-acknowledged programs you wouldn't necessarily know to ask about. Dr. Superson has done her homework for all of us!

This book is so extremely helpful for any caregiver, senior and anyone getting older. The information it supplies is unbelievably beneficial for all people. I am so impressed with how easy it was to read and find out the answers I need to know. I think everyone needs to get a copy of this book. It is a mountain of information and resources that we all can use one day in our lives.

If you or someone you know is facing a caregiver situation, the title of this book says it all. It really is an essential resource guide for caregivers, and it's chock full of helpful information, tips, resources, and written with the wisdom of someone who has been through the caregiver ordeal herself. The author's compassion shines through, and this book really succeeds in its intention to "help the helper."
