Customer Reviews

I loved the characters and the action. I loved that the author wove military jargon into the story rather than just tediously telling us about the weapons and all. The tension was great and the storyline compelling. I'm going to look for the second book right now.

well pleased

it so much better to listen to a story- I get so much more out of it- thanks so much,

The book came in the mail within three days and was in very good condition. I like these books and they are easy to read and lend themselves to the imagination of the reader often keeping one wondering what if..... Overall, great customer service and a great book to read.

Part of a series that takes the last book of the Bible and uses fictions characters and situations to illustrate.

Great book!

A must read for all those who follow Bible prophecy. Only God knows how it's all going to go down but I enjoy the various ideas these type books put forth.

I was not familiar with Odom's works and bought on impulse. This is not science fiction. I regret the purchase.
