Manga For The Beginner Chibis: Everything You Need To Start Drawing The Super-Cute Characters Of Japanese Comics

Synopsis

The ultimate guide to creating chibis! They populate manga with chunky bodies, oversized heads, and huge expressive eyes. They're schoolgirls and schoolboys, magical girls and mad scientists, fairies and fighter princesses, cyborgs and sci-fi secret agents, bikers and bad samurais, robots and rebel leaders. They've even got chubby pets and zany monster sidekicks! They're chibis! Excruciatingly cute, highly stylized, and beloved in all manga genres (fantasy, magical girls, shounen, anthro, sci-fi, and more), without them, manga would barely exist. And now you can learn, step by step, how to draw virtually every chibi out there, how to "chibify" ordinary manga characters—and how to invent your very own designs! Covering facial expressions, those iconic manga eyes, costumes, character interaction, and story settings, *Manga for the Beginner Chibis* has it all.

CHRISTOPHER HART is the world's bestselling author of drawing and cartooning books. His books have sold more than 7.4 million copies and have been translated into 20 languages. Renowned for up-to-the-minute content and easy-to-follow steps, all of Hart's books have become staples for a new generation of aspiring artists and professionals, and they have been selected by the American Library Association for special notice.

This was not the biggest or blingy-est gift under the tree last year, but it turned out to be my daughter's absolute favorite. She worked through it constantly, and we eventually followed up with

Hart's more advanced manga technique books. If you have a child who likes to draw and is interested in anime or manga, I can't think of a gift that will get more use.

I got this for my granddaughter's birthday when she turned 13. She said she liked it. She's had it for 3 months now and she uses it. I was happy to find this art book for her. It's just like they said in the description, it's for beginners. She loves drawing girls with large eyes.

My daughter loves these Christopher Hart books. Now her dream is to learn Japanese and be a manga artist in Japan when she grows up! The books are well written with lots of pictures, examples and tips needed to get better at drawing this chibi style correctly. Chibi means small by the way. Chibis are smaller, cuter versions of a character. Take a villain, for example, draw them as a chibi and suddenly they are super cute instead of mean!

Awesome gift! I gave this to my daughter for her birthday she is 9, she loved all the details and pictures. I was also impressed with the step by step pictures they had for drawing the chibis. A great price for a big book too lol

This is one of my favorite Manga Chibi books. The author teaches you how to make your Chibi look realistic, show expression and wear their clothes. This book really might be a second step book but beginners can use it. Those a little more advanced will continue to grow in the manga artist talent.

Very good buy!!!!

Can learn a lot from these teachings. Now I know how I can draw Chibi! Good illustration and easy to read and understand. A good buy.

Some of the sweetest drawing you can find. Thank you and enjoy your day
