Synopsis

This starting volume of the Complete Acoustic Blues Method covers basic blues theory, left-hand techniques, call and response phrasing, intros, turnarounds, endings, and improvisation. Customer Reviews

The lessons in the book are good and not too complicated-- great for a beginner. My only complaint is that the book is not bound well-- mine fell apart the first day I had it, and pages fall out all the time. I was very disappointed with that, because it's a pain. Otherwise, the book is good.

I use this for teaching my Beginning Blues Classes.

Blues for Lightning is worth more than the price of the book in my opinion.

I have really enjoyed going through this book, it has a good introduction/review of Music Theory and relates it to the pieces presented very well.
