Customer Reviews

Let me start off by saying "Book series" is a little bit of a stretch. This "book" is 30 pages long, double spaced, bullet point style. I feel something that is 10\$ should provide value. If you have never heard of internet marketing, never seen an advertisement for a program, or never signed up for anyone other persons passive/online course, maybe you can get \$0.25 cents of value from this. I am on several lists for peoples programs, which I have admittedly not bought, that have given me far more value in 1 email. This book is literally just one big advertisement for other books, which I will guess are about the same. The book directs you to go to his blog, to read more information. The blog is then another little information (No value) about how you should purchase this program or that program (Aka affiliate marketing) It seems like just an advertisement for his products. (I am returning this book by the way) Google or youtube ways to make passive income, I literally saved you \$10. By the time you are done reading this, you will realize that I have been bullet pointing it and double spacing, it would literally take up 3 pages in this book. I read the entire book in under 5 minutes. There might actually be more words in the review now than on a page in the book. The concept of a

book is to provide value, this does not. It then says free information, which again is no value, and then asks you to buy something which may provide value but costs significant money. No value --> No value ---> Maybe value. Most people who truly have a good program pay for advertisements on google or facebook, Those ads have more value.

I'm positive that there are multiple pages after googling that will provide you with the same information for FREE. I was a little disappointed with this book because I thought it was going to provide a little more depth and info. If i knew I could have just found the SAME info on google i wouldn't have purchased.

Short but to the point.

I was very disappointed in this book, which is a mere booklet of less than 30 pages, large print and some pages only 2 lines of print, no useful information, just useless dribble and waste of money.

This book was a great read. Lots of information and straight to the point. This will change lives if the knowledge is applied to daily life.

It was something that is just not for me. Thanks Jake

The book is s complete scam and rip off. Save your money.

Anyone who is interested in applying their creativity and intelligence to setting up a business that can earn revenue 24 hours a day should read this short book. Dvir Oren shares his knowledge and experience with seven key ways of achieving financial success with internet-based initiatives. Reading this book will help budding entrepreneurs to review different techniques and decide which one fits best with their skills, interests and ambitions.
