This book deals with an amazing adventure story and will definitely attract kids. The little kids will find it easy to read the story and the extra-ordinary narration of the story with pictures in the book will also impress the kids. This book is not only for kids, but also for minecraft adult fans. The adults will also find the book interesting. The story line of the book is unique and it will definitely give a brand new adventure experience to the readers.

Minecraft is one of those games that is played by both, kids and adults with passion. This book is very good. The story line along with the pictures, not only makes it easy to read but also makes it very interesting.

A must read and incredible adventure story which will definitely attract kids. I truly loved the easy narration of the story which is made extraordinary with the amazing pictures in the book. The pictures are very impressive. In fact, as an adult, I must say this book is not meant for kids only; any adult reader would enjoy the interesting story alike. The adventure experience that the book gave me was quite similar to the game which both kids and adults love to play. The twists and turns in this book will keep your kid captivated because of its interesting storyline and its character Witherstorm: The World Destroyer™ who has a plan in hand to end the world. A treat for every Minecraft fan!

The world of minecraft story telling always keeps me interested, this one in particular has taken it to the next level the story is rich with content and I am pretty happy with the purchase. Would surely recommend this to minecraft novel fans not only kids because it's got a really catchy sense of expression which people of ages would like.

If your kid is a Minecraft fan, then this is a must buy. Read about Witherstorm, the world destroyer who has a plan to end the world and how he meets his match. The twists and turns in this book will keep your kid enraptured for a long time!

I am a big fan of minecraft and I'm crazy about this kind of books. So I bought one of this, thinking that it will be good enough to not bore me and it actually surprised me... I generally like interesting and challenging story and this delivers it..Loved it..

It's amazing! Where is the sequel? Only problem, is that I am pretty sure this was already published.

Are you simply reloading the series, that had happened to another author, the books started vanishing, so the author had to completely republish the entire series except for two books that remained being able to access
