Mandolin Exercises For Dummies

Synopsis

Practice makes perfect with this hands-on resource for mandolin players of all skill levels. If you're looking for an accessible practice-based book to improve your playing, you've come to the right place. *Mandolin Exercises For Dummies* focuses on the skills that players often find challenging and provides tips, tricks and plenty of cool exercises that will have you picking with the best of them—or at least much better than before! *Mandolin Exercises For Dummies* is packed with instruction—from hundreds of exercises to drills and practice pieces. And it gets better. You'll also have online access to downloadable audio files for each exercise, making this practice-based package a complete mandolin companion. Puts an overview of the fundamentals in perspective, helps you to use exercises to limber up, and much more. Dives into the major and minor arpeggios with triad patterns, then moves on to major 7th and minor 7th patterns. Details the major scales, then moves on to mastering the minor scales with practice exercises. Contains tips to help you practice better, including using a metronome, playing with recordings, and more. Master the basics and sharpen your mandolin-playing skills with this reliable resource.

- Tips and exercises for connecting scale patterns
- Tricks for chord progressions, along with practise notes
- Ten tunes to practise everything at once

Don Julin is professional mandolin player, instructor and recording artist. Don has spent the last 30 years challenging the boundaries of mandolin and helping others do the same. He is the author of *Mandolin For Dummies*®.

These exercises are great for getting your timing, tone and speed up with the mando. Reason for 4 stars and not 5 stars is there are so many exercises in the book that you better be retired if you take the time to work on all of them.

Companion to Don Julin's *Mandolin for Dummies*, good exercises builds on a sequence of increasing skill. Good to learn, good to keep up one's skills. Audio on line added feature instead of cd. Will help you improve

Every mandolinist should own this. Unless you are Chris Thile. If you aren't, order it.

Gave me ideas on different exercises I would have never thought of. Buy this book no matter what your experience level.

Outstanding product. Great work by Don Julin again. Excellent companion for the *Mandolin for Dummies* book. A must have for the serious mandolinist.

Not for beginners. Get the mandolin for dummies book if you're a beginner.

This is an excellent book, however, when you buy it, you should also have a copy of Mandolin for Dummies since this book makes frequent references to that book. Indeed, this is not a book for anyone just starting out with a mandolin. Having said that, however, it is probably the best book I've found for exercises and ways to dig deeper into learning the instrument.

A great deal of really useful, accessible information. I am interested in improvising and this book is perfect for building the infrastructure needed. I find it inspirational. Don has a lot of information on the internet, both free and subscription.
