"The best Latin text now available and I very much doubt that a better one will appear for a long time."—Ralph W. Johnson, Cornell University

I have a lot of books on Latin. This one is excellent.

gift

I bought this used and the quality matched its label. The book glosses over a lot of important concepts that your teacher should further explain. Also, the sentences can be quite ridiculous to translate in terms of both grammar and meaning. The appendices are really good though as a reference when doing paradigms and synopses. Overall, I recommend this more as a supplemental book rather than the actual textbook to use for an Intensive Latin course.

Best Latin textbook ever made. Clear, thorough and motivating all in one book. Having all the grammar presented simultaneously allows students to learn by comparison.

I think this will be exactly what we need. We are a retired group who all had an interest in rekindling our knowledge of Latin. This text should work well.

I needed something beyond the complete beginner's books, and this one is a nice help into, and perhaps all the way through, intermediary knowledge of Latin.

Second time I bought this book, and I need a third copy.

Not much more to say about this particular book. It's good if you like an old school, but accessible Latin course!
