Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 10 customer reviews

Best Sellers Rank: #588,777 in Books (See Top 100 in Books) #178 in [Books > Travel > United States > New York > General](#) #494 in [Books > Travel > United States > Northeast > Mid Atlantic](#)

Customer Reviews

A fun read and reasonably useful but also limited. The Guide writes love letters to restaurants from which the authors have particular affection but they rarely tell you about the places' limitations and, of course, they never tell you about the places that are not good enough to be included in the guide. You probably will have a good time if you take their advice but you will discover that reality is more complex than the picture drawn in this Guide.

With all the thousands of restaurants from which to choose in Manhattan, it can be overwhelming to choose. This book made it so easy for me to find restaurants. It has a great map in the front that breaks Manhattan down into different neighborhoods - Midtown West, Soho, etc. So, I realized that our hotel in Times Square was in Midtown West, and I went to that section in the book and only looked at restaurants in that neighborhood. Once I chose a bunch that looked interesting to me, I went on the restaurants website (which the book includes) and looked at the menus to narrow down my choices. I was really overwhelmed with the restaurant choices until I bought this book. I love how they break it down, and they tell you right below the restaurant name the type of restaurant, ie Japanese, Italian, etc.

It is not very practical for me. This book would be nice for some retirees who have enough time to spend hours in restaurants. I expected something for daily life when I purchased this book. Based on the evaluations by Michelin, most restaurants don't even deserve to be properly rated. It is certainly ok to have high expectations, but this is NYC. In this city, even tourists have to run. Also, for me the quality of the food comes first, then the decoration, etc.

A very useful guide to good restaurants. A pretty wide range of cuisines and prices. Of course the (few) Michelin-starred restaurants are the most expensive end, but this guide covers a much larger range of eateries.

Excellent. Reviewed the summary of several restaurants we visited this weekend. Spot on!

A valuable resource for dining with thorough descriptions and critiques

The best restaurant reviews available

Always helpful when trying to track down a very good NY restaurant. Be aware that in contrast to Zagat's, in which diners vote, the Michelin Guide has professionals visit the restaurant, hopefully incognito. I find that in Michelin, there is more discussion of the decor than the food, perhaps because the 3rd (top) star is awarded for decor. But if dining in an upscale atmosphere is your thing, it's a good guide. I like to take into account both views, Zagat and Michelin. The NY Times has good reviews too, if you agree with the taste of the reviewer. I will not tell you who my favorites are (were) because I don't think it is fair to the reviewers in the 2 publications mentioned above but once I found them, I followed them religiously and was never disappointed.
