Theology Of Work And Poverty Alleviation In Mozambique: Focus On The Metropolitan Capital, Maputo

Synopsis

This publication seeks to determine the need, possibilities, and strategies, necessary to alleviate urban poverty in Mozambique through the tool of transformational business, understood out of a Contextual Theology of Work (CTOW). Focusing on the Maputo metropolitan area, but also wider contexts, the author examines the dynamic relationship of urban poverty, unemployment and work. Recognising that unemployment is the main factor behind poverty in Mozambique and placing great emphasis on kingdom theology the author recommends that evangelical churches need to embrace CTOW and engage positively with urban poverty to create real economic change.
