We Drifted Into The : A Homemade Bamboo Raft Down The Mighty River, Unsupported

Synopsis

A true story, written first-hand, of a modern, intrepid adventure: 2 explorers ventured into the jungle of Ecuador, befriended a tribal family and spent a month constructing a big, beautiful bamboo raft. For 4 months they floated 2000 miles through the Rainforest, sucking up everything the adventure threw at them: virgin jungle, indigenous tribes, an unpredictable river, tropical rainstorms and a fearful presence of river pirates.

Customer Reviews

I found this book looking on the internet, after a trip to the Napo River in my home country of Ecuador. Our guides had told us about a "crazy dude" who built his own raft and went to Brazil from Ecuador, down the Napo and rivers. I was amazed by this adventure, and had to find out more. I eventually found Henrik and his blog. What an amazing experience my friend! You are living life to the fullest, and I salute your courage and determination! Thanks for writing this book and sharing your experiences. Please, keep us posted on your new adventures to come!

An extraordinary tale about a part of the world, that very few from the modern world knows. A mix of vivid description of surroundings and events and the reflections and emotions on humankind and the inner self. It is an absolute beauty of a story that I will recommend for anyone with interest in society, developing in the world, traveling, adventuring or simply just someone who takes an interest in life itself!

Wow! What a freaking adventure. Well done - a fantastic story that I read straight through. He really gives you a perspective on what unexpected things you run across when you build a dang 30 ft. raft in the jungle and sail down the . I highly recommend this eBook and will read it again. Cheers, Henrik!

Great book and a very exiting adventure to read about. Like to get a little history from the different cities and all is relevant to the story. Definitely recommend this book to all and especially to people who are considering some kind of adventure themselves

Great work, Henrik! This book was fun to read and covered an adventure that few will ever get to experience in real life.

Great read if you like adventure stories! Henrik tells you early that he is not a writer; however, I absolutely disagree with him.....he's a great writer and the best adventure books make you feel part of the action. He does this brilliantly without fanfare or the usual hyperbole. He "simply" takes you with him on a ride down the on a raft built cheaply and from available materials. Thanks!

very entertaining, I read this entire book in 3 separate readings, couldn't put it down. I enjoyed every page, maybe not Ernest Hemingway, but certainly well written and very entertaining. I like true stories for knowledge of the real world, this book certainly accomplished that. great story, very informative about the people of the basin.,

Nicely written, sometimes a bit overwhelming with a bit of sort of preaching, but I enjoyed the book totally.
