## **Customer Reviews**

Worked great for our small 7 people Seder. Would be nice if there were transliterations of the key prayers. Nevertheless this Haggadah includes all the important elements of the Passover Seder both before and after the meal. And has the major songs in the back.

Classic Haggadah, that is just long enough to feel like you've done your praying, and just short enough to keep your attention span in check. Will order (lol) more in the future before the next Seder.

Well as others have noticed, not only is this bound the wrong way, but the printing quality is GARBAGE. It's smaller type, cheaper paper and a lot of the words are blurred to the point that I was wondering if it was actually typed in Cyrillic. I am probably contacting to discuss a possible refund and or re-order. This appears to be a photocopy of the original and put together by a rushed and uncaring company.

Overpriced and page 41 is printed upside down on all 6 that I purchased! I found this same

Hagaddah (without the flaw) for MUCH cheaper elsewhere.

This is the best Haggadah according to my children ( who used this one in Hebrew school) but you need to be careful if trying to match new that you already own as there are several different versions. I bought three to acc. Donate our growing family (each from a different seller) and only one of them was a true match to the ones we already owned. I don't know which one was a match, whether it was this one or not. The other two had different page numbers and layout which made keeping everyone n track for responsive reading more challenging.

The printing was so blurry on this set of haggadot that we all thought we were having vision problems. I will be searching for a different set for Passover next year.

HORRIBLE Haggadah!! I thought this was the same one my family used and was so excited when I hosted my first Passover sedar for 12 friends one night and 7 the other. But nope - some of the print was messed up so you couldn't read the book (that 3-d shadow effect or cut-off), the story wasn't quite right, and if I recall, I think there were even sentences missing. We ended up scrapping the book and I asked my sister to purchase me some from her temple the next time they sell them. My advice - do NOT buy a Haggadah you have not fully checked out first. Everyone at my sedar was laughing at how bad the Haggadah was. It did the job in the sense I could use it to hit the highlights, but that's it. To help you understand just how bad it was...none of the attendees at my sedars celebrated the holiday together before - we all grew up using Haggadah's in our homes - yet we all felt this one was ridiculously awful. We are all conservative / reformed Jews, just for context in terms of what we're used to. Anyway, bad, bad Haggadah. Gets 2 stars because I was able to salvage it for the sedars, but they will never be used for another seder by me - really bad.

It was more than expected however, the Hebrew could have been written in phonetic English as well.
