Entertaining Australian wine industry read. A great deal of Australian winemaker, vineyard, business, viticulture and consumer drinking trends from the 20s through the 90s. A joy to read without being laden with technical jargon but just like the title states this is a look at wine from a historical perspective not a buyers guide. Nine chapters that take you through the Aussie wine community: 1) How wine changed Australia 2) In the vineyard 3) In the winery 4) Wine

education & research - Women and wine<sup>5</sup>)International influence on the Australian wine industry<sup>6</sup>)Pioneers-winemakers,regions,vineyards (cooperation & collaboration)<sup>7</sup>)Introducing Australian to Australian wine-politics<sup>8</sup>)Australian wine business<sup>9</sup>)Selling Australian wine overseasNotes:Major players within the industry (winemakers,distributors,viticulturists etc.)Recommended reading for beginning through well informed. Since I had read only a few books on Australian wine but not much at all about the business and history side this was a fantastic entry. It certainly sparked my interest for more reading material on this subject that I purchased three more books on the subject by the time I finished the last page.

I laughed and then cried in many parts of this book. I'm thinking to myself the whole time....hey what's up with the tears...and stuff
