We've started buying these books instead of greeting cards for family--for between \$2 and \$4, it's

the same price for a keepsake that the kids can share with Grandparents. These stories are sweet and there are quirky fun things in the illustrations that make the books fun to read over and over again.

This is a cute book. Nobody will go fishing with Little Critter except for his Grandma, they get a little wet in the rain but enjoy the day nonetheless. Classic Little Critter story in which not everything goes smoothly, but at the end of the day a memory is made and all are happy.

Cute story, kind of. Not very impressed with the storyline . Grandkids barely sat still through it, and They love story time.

I read these Critter books to my son when he was small, now I read them to his son ~ Love, love, love...

Loved it and liked the grandma taking him - non-traditional.

Cute.

I love this book. My grandson does also. He laughs when he sees grandma fishing on the boat.

Such a cute book, my daughter loves fishing and she adores her nana so this book was a def win!
