Who'd of thought someone could actually make cleaning something that wasn't right up there with having your fingernails ripped out? I'm halfway through the book, which is an amazingly easy read, and actually, dare I say, can't wait to get cleaning. I put a bit of what I gleaned from last night's reading into practice today at work, and did an unassigned portion of our departmental cleaning. It was quite a large undertaking, but I started at the top of my project, and worked my way down. In fact, it went so well, I cleaned the same area in another room. Hah! Who'd of thought?! Love the book, the author, and all of the techniques therein. Glad I took the leap and bought the book. Worth every dime. And then some.

I highly recommend this book to anyone (any age) who is even slightly dissatisfied with the results of their cleaning efforts. I appreciate Melissa's common sense approach and sense of humor. I also appreciate the DIY cleaning recipes as I've become more sensitive to smells over the years (whether good or bad), and it's been difficult to find fragrance-free products that work. I actually hesitated to buy this book at first as I have other cleaning books and thought this one would have the same information. And yes it does contain a lot of the same information; HOWEVER, Melissa brings it all together in a way I have not seen before. I have repeatedly returned to this book to re-read her tips and suggestions. I have found this book to be an excellent resource and I'm so glad I purchased it. Thank you Melissa!
