Junior Hanon (Alfred Masterwork Edition)

Synopsis

A slight condensation of Hanon's first exercises. The simplification in layout and range make the exercises appear less difficult to a young student.

Customer Reviews

It's simple for kids to understand music theory. But need to do it with a teacher because there was not easy to self teach for kids to do it by themselves. Of course if your kids piano prodigy, it should be no problem for them.

I wish the note can be a little bigger for little ones. Not as big as expected.

Great product.

great

We purchased this book for our daughter to use as a warm up before her piano practice. She loves it and it is giving her good practice.

Good book. The it is for late beginner to medium ability. Must know at least 3 octaves for this to benefit.

This book is excellent for developing finger coordination using both hands. It's used as an exercise book in learning how to read music. For the beginner, it should be purchased along with the Alfred Adult All-In-One Course Level 1.

My junior Hanon book is great for my smallest one. He loves using it. We love Hanon scales. This is another great one for younger pianists.
