Glenn H. Curtiss: Aviation Pioneer (Images Of Aviation)

Synopsis

Glenn Curtiss beat even the Wright brothers (who sued him bitterly) to get pilot's license No. 1 in America. He teamed with Alexander Graham Bell, helped develop the moving wing part known as the aileron, introduced tricycle landing gear, made the first airplane sales, and turned aeronautics into a multimillion dollar business. His innovations ranged from the Curtiss Pusher to the hydroaeroplane, the flying boat, and the Curtiss Jenny. Curtiss, his engines, and his airplanes dominated the world of early aviation on this side of the Atlantic. Glenn H. Curtiss: Aviation Pioneer charts Curtiss's breakneck course across two continents, North America and Europe, setting speed and distance records, experimenting with military applications, always striving for a safer, faster airplane. Fostering both water flyers and shipboard landing, he became the Father of Naval Aviation. But even the skies were not wide enough for the busy brain of Curtiss. Glenn H. Curtiss: Aviation Pioneer also tracks his dizzying ride from a village bicycle shop to record-smashing motorcycle races, futuristic travel trailers, and city building in the Florida land boom.

Book Information

Series: Images of Aviation

Paperback: 128 pages

Publisher: Arcadia Publishing; First Edition edition (June 20, 2001)

Language: English

ISBN-10: 0738505196

Product Dimensions: 6.5 x 0.3 x 9.2 inches

Shipping Weight: 10.4 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 2 customer reviews

Best Sellers Rank: #1,397,620 in Books (See Top 100 in Books) #125 in Books > Arts & Photography > Photography & Video > Aerial #144 in Books > Arts & Photography > Vehicle Pictorials > Aviation #423 in Books > Engineering & Transportation > Transportation > Aviation > Commercial

Customer Reviews

Charles R. Mitchell, author of two other Arcadia books (Penn Yan and Keuka Lake and Hammondsport and Keuka Lake), is a professional photographer. He is associated with the Oliver House Museum in Penn Yan. Kirk W. House, a former teacher and school administrator, is directorcurator of the Glenn Curtiss Museum in Hammondsport. His writings have appeared in

numerous aviation and general-interest publications. He is a historian member of the OX-5 Aviation Pioneers.

very interesting

After reading a biography of Curtiss, as well as his own thoughts on aviation, seeing his life and his works captured extensively in photographs was the pièce de résistance. One of the perks with studying modern history.
